

Front-End React Developer with a passion for coding innovative projects with using the power of React. I have a knack for stream-lining complex issues. My background in Marketing/Sales aids me to create solutions that are both efficient and intuitive to the client's needs. I enjoy being a part of a team and working hard towards our collective goals. I'm looking to create more ways to seamlessly implement technology into the most common of everyday tasks. I am Green Card Holder

TECHNICAL SKILLS

Front End	React React Hooks JavaScript Material UI Bootstrap Responsive Design Rest Apis HTML5 CSS3 JQuery JSON User Interface Design Netlify Object-Oriented Programming (OOP)
Back-End	Node.js MongoDB Mongoose Postman API Data Structure Algorithms
Tools	Git Github VS Code Heroku Slack Team building

EXPERIENCE

Software Engineering Immersive May 2021 — Aug 2021
General Assembly Remote

- Successfully completed 500+ hours of expert-led instruction in front end development, databases, frameworks and hands-on learning most in-demand technologies
- Using industry known tools like GIT version control, JavaScript, React, Express, Node, MongoDB, Python with Django and PostgreSQL databases to ultimately create 4 projects to showcase learning and development.

Sales Specialist Feb 2020 — Mar 2021
MileOne Autogroup Owings Mills, Maryland

- Managed and responded to leads from multiple sources via phone and email correspondence. Managed a database of over 2000 customers making calls, emails and phone contact regularly.
- Assisted customers with online credit application access for pre-approval and answered questions regarding credit, financing and other important topics to help the customer feel at ease.
- Increased sales to the dealership by an average of 13 deals a month with front and back end profit.

Front-end Developer Aug 2018 — Jan 2019
VisionBird Technologies Gujrat, Pakistan

- Implemented websites, mobile applications, and landing pages from concept through deployment.
- Standardized all output with a new, responsive, mobile-first approach and strategy.
- Assessed UX and UI designs for technical feasibility.
- Collaborated with product team members to implement new feature developments

PROJECTS

Covid-19 Tracker, Track Active Cases of Covid-19 around the world [Github — Live](#)
